- FLOATS in fresh and salt water.
- Equipped with lithium AA batteries for even longer life, less weight and longer shelf life.

*MSRP \$54.99 - Part #ELPDFLM3M

Standard eternaLight™ Model 3 features:

Four independent solid-state WHITE LED bulbs insure power, reliability and safety. Each bulb is rated at over 50,000 hours of continuous use. The built-in microprocessor controls power utilization extending battery life way beyond ordinary flashlights - up to 700 hours! And, it also provides many other useful features like:

- **Timer mode** - automatically turns unit off if left on accidentally.
- **Dimmer mode** - allows for variable power output.
- **Flasher mode** - high visibility blinking mode with variable rate.
- **Strobe mode** - short exposure for stop-action effects.
- **Dazzle mode** - great for attention-getting needs like sales presentations or product promotions.
- **S.O.S. mode** - emergency distress mode sends the morse code S.O.S. international distress call continuously.
- **Momentary mode** - allows user to send code and signals.

With all this sophistication, it's still easy to use. The pleasant one-handed operation makes turning the unit on and off simple enough for a two-year-old child.
